

Kindergarten Education Scheme Facilities for Experiential Learning Activities Display Form

Lei Yue Mun Methodist Kindergarten

Name of School

2023-2024

School Year

K2

Grade Level

Name of Activity

Experience a ferry ride

Objective(s)

- Children can experience riding the ferry and learn about the facilities on the pier
- Outdoor sketching: Observe the boats on the sea for outdoor sketching

Brief Descriptions:

Through the personal experience of taking a ferry across the sea, children can observe the appearance and characteristics of different types of boats at short distance during experiential learning, and also experience riding on ferries, which deepens their understanding of different types of boats, facilities on board, and rides, the procedures of the ferry, the facilities at the pier and the understanding of the staff on board that further consolidate the children's understanding of the theme of "ships on the sea". In addition to observing different types of boats, children will also engage in sketching activities, allowing them to more observe the shapes and characteristics of various types of boats at sea carefully and consolidate relevant knowledge during the sketching process.

Record of Activity (E.g. Children's Work / Photos / Videos of the activity)
