

Kindergarten Education Scheme Facilities for Experiential Learning Activities Display Form

Lei Yue Mun Methodist Kindergarten

Name of School

2023-2024

K2

School Year

Grade Level

Name of Activity

Beach Experience

Objective(s)

- Children should pay attention to safety precautions when experiencing the beach for themselves
- Explore the sand through the senses and discover ways to cool down

Brief Descriptions:

Through the theme of "Summer is here", teachers bring the children out of the classroom and have the outdoor learning. Children had the personally experience in "Shek O Beach" for sand exploration, they can discover different textures of sand such as dry and wet sand during the process, also drew on the sand, built forts and other games. During the exploration, children used sand pile tools to discover the fluidity of dry sand and the shaping properties of wet sand. They gained a deeper understanding through experiential learning. During this activity, children practiced various ways to cool down and prevent summer heat, such as cool down under the shade of trees, drank water, applied sunscreen, ate ice cream, etc. In the "Beach Experience Day" activity, children could experience the hot summer weather and experience various ways to cool down body , which could connected their learning experience with life.
